DAY 1 Welcome

Upon arrival in Málaga or Granada, our pick-up will drive us to our rural hotel in the Guadix region located between the north of the Sierra Nevada Mountain Range and the Gorafe desert, one of the unique landscapes of the province of Granada.

The tour leader will organize an introductory briefing about the trip the same day followed by a safety briefing.

There will be an organized dinner to celebrate the first day of the journey.

DAY 2

Trail 1: Laroles – Válor

TOTAL DISTANCE: 13 KM

TOTAL ASCENT: 550 M

TOTAL DESCENT: 650 M

DURATION TRAIL: 5 H

DIFFICULTY: B

After breakfast, we drive over the mountain pass “Puerto La Ragua” to the trekking starting point in the Laroles village.

The trail starts at the upper part of the village, at 1000 meters above sea level, from where you can see the flat roofs of the town's houses.

One of the defining elements of the territory that reaches its maximum significance in the Alpujarra region is the architecture with values from other cultures and civilizations. The orography and relief of the terrain influence the profile of the towns. These villages are distributed and oriented towards the south so that the sun offers them its luminosity and keeps them warm for as long as possible in the cold winters. Most of these towns are located in the middle of the slopes that descend from the top of the Sierra Nevada in a stepped composition that gives them a charm.

The tour leader will organize a dinner.

DAY 3

Trail 2 Válor – Mecina Bombarón

TOTAL DISTANCE: 13 KM

TOTAL ASCENT: 700 M

TOTAL DESCENT: 400 M

DURATION TRAIL: 5 H

DIFFICULTY: B

We leave the village of Válor which was the homeland of the Alpujarra hero Aben Humeya, a descendant of the Umayyad caliphs, who was proclaimed King of the Alpujarra after the Moorish uprising against the Christians in the reign of Philip II, back in 1568.

The second hike will take us to Yegen, a peaceful village where the romantic traveler Gerald Brenan lived known as the author of “Al Sur de Granada”, one of the best-known books about the Alpujarra. After crossing the Mecina River and a steep climb we reach the village of Mecina Bombarón.

After we take the car that brings us to our next hotel nearby in the village of Cádiar located between the Sierra Nevada and the Contraviesa mountain range.

The tour leader will organize a dinner.

DAY 4

Trail 3 Cádiar - Trevélez

TOTAL DISTANCE: 20 KM

TOTAL ASCENT: 1.300 M

TOTAL DESCENT: 900 M

DURATION TRAIL: 7 H

DIFFICULTY: D

Today's stage will be more demanding. It will take us from the southernmost point of the Alpujarra trail (800 meters) to the highest point of the trekking, about 1.500 meters above sea level, in the village of Trevélez.

Besides being the highest village in the Sierra Nevada, Trevélez is renowned for its naturally cured hams, benefiting from the healthy air of Sierra Nevada. In the 19th century, the ham of Trevélez gained recognition when Queen Isabel II granted it the distinction of being a supplier to the Royal House. It currently holds the Denomination of Origin and has attained worldwide recognition.

The village is surrounded by dramatic landscapes and sprawls along the southwestern slope of Mulhacén, the highest peak of mainland Spain.

The tour leader will organize a dinner.

DAY 5

Trail 4 Trevélez – La Taha

TOTAL DISTANCE: 17 KM

TOTAL ASCENT: 650 M

TOTAL DESCENT: 950 M

DURATION TRAIL: 5 H

DIFFICULTAD: C

Today, the trail takes you through a forest of holm oaks which in autumn offers a colorful and impressive valley. In spring the gorse and broom come into bloom, producing a sea of bright yellow flowers.

The panoramic views we pass expose the rugged landscapes with deep valleys and large slopes of the Alpujarra region. Isolated places like ravines are home to many species of fauna and flora due to microclimates characterized by freezing temperatures in winter and mild temperatures in summer.

After crossing two ravines and a long descent the path arrives at the village of Busquístar near our destination for today called “La Taha”, a municipality that consists of several beautiful small towns. The name derives from the administrative divisions of the ancient Kingdom of Granada during the Nasrid era.

It is a peaceful place with stunning views, preserving well-maintained traditional neighborhoods in the Alpujarra.

The tour leader will organize a dinner.

DAY 6

Trail 5 La Taha – Capileira

TOTAL DISTANCE: 9 KM

TOTAL ASCENT: 815 M

TOTAL DESCENT: 410 M

DURATION TRAIL: 5 H

DIFFICULT: C

Today's last stage is an upward trail with a long ascent in the morning that brings us to our last destination, the village of Capileira, the highest of the three small towns located at 1.435 meters in the gorge of the Poqueira River.

The Poqueira Gorge and the three villages on its slopes have become one of the most iconic sights of the Alpujarra Mountains. It is located at the foot of the highest peaks and contains one of the most surprising landscapes of the Sierra Nevada Natural Park making it a must-see for anyone who wants to get to know the Alpujarra.

Here we stay for the last two nights of the trekking.

Free Dinner

DAY 7 Free day Capileira

Explore the Historic-Artistic site of Poqueira River Valley and the three villages; Pampaneira, Bubión, and Capileira.

Although its origins date back to the Phoenicians, Romans, and Visigoths, the strongest legacy is left by the Arabs. The traditional architecture with typical white houses and flat roofs built along steep and winding streets, irrigation systems, agriculture, and linguistic roots are the inheritance left by a culture that was present for eight hundred years.

For the enthusiasts, there is the option to join the guide for an extra hike in the area. The guide will organize a place to have dinner together to celebrate the last evening of the journey.
